Re: **Business practice manual change management report**

This memorandum does not require ISO Board of Governors action.

As required by the Federal Energy Regulatory Commission, Management provides this report to inform the ISO Board of Governors on the status of the business practice manual (BPM) change requests submitted by stakeholders and/or the California Independent System Operator Corporation.

Both the ISO and stakeholders use the same electronic system and process to submit and track proposed changes to the BPMs. The process includes stakeholder review, ISO approval or rejection, and a possible appeal to the BPM Appeals Committee, which is comprised of three ISO officers.

As of May 14, 2025, the following table represents the active proposed revision requests (PRRs) in the BPM change management system.

Business Practice Manual (BPM)	# of PRR's
Candidate CRR Holder Registration	2
Congestion Revenue Rights	1
Demand Response	1
Generator Management	2
Market Instruments	2
Market Operations	6
Reliability Requirements	3
Scheduling Coordinator Certification and Termination	3
Settlements and Billing	3
Transmission Planning Process	1
Total	24

*Comparing total to the BPM Attachment: seven (7) active PRRs are in the Initial commenting stage, two (2) active PRRs are in the recommendation comment stage, thirteen (13) were closed and two (2) were withdrawn.

PROCESS OVERVIEW

The ISO held two (2) monthly BPM change management stakeholder meetings since the submittal of the previous report to the ISO Board of Governors. There was a stakeholder meeting on March 25, 2025, in which twenty-two (22) stakeholders participated. There was a stakeholder meeting on April 22, 2025, in which thirty (30) stakeholders participated. Based on stakeholder comments during the meetings and comments entered into the BPM change management electronic system, it appears that stakeholders are generally satisfied with the process.

PRR 1610 was withdrawn due to multiple stakeholder concerns.
