As required by the Federal Energy Regulatory Commission, Management provides this report to inform the ISO Board of Governors on the status of the business practice manual (BPM) change requests submitted by stakeholders and/or the California Independent System Operator Corporation.

Both the ISO and stakeholders use the same electronic system and process to submit and track proposed changes to the BPMs. The process includes stakeholder review, ISO approval or rejection, and a possible appeal to the BPM Appeals Committee, which is comprised of three ISO officers.

As of September 3, 2024, the following table represents the active proposed revision requests (PRRs) in the BPM change management system.

## PROCESS OVERVIEW

The ISO held two (2) monthly BPM change management stakeholder meetings since the submittal of the previous report to the ISO Board of Governors. There was a stakeholder meeting on July 23, 2024, in which nineteen (19) stakeholders participated. There was a stakeholder meeting on August 20, 2024, in which thirty-four (34) stakeholders participated. Based on stakeholder comments during the meetings and comments entered into the BPM change management electronic system, it appears that stakeholders are generally satisfied with the process.
