

Board Update: BPM Change Management Process

July 26-27, 2017 Board of Governors Meeting

Active PRR Stage	# of PRR's
Initial comment	5
Pending recommendation	2
Recommendation comment	1
Pending final decision	2
Final decision	3
Appeal	3

Business Practice Manual (BPM)	# of PRR's
Congestion Revenue Rights	1
Generator Interconnection Deliverability and Allocation Procedures	6
Generator Management	2
Market Operations	1
Reliability Requirements	1
Settlements and Billing	4
Transmission Planning Process	1
Total	16

Adopted or Rejected	PRR Number	PRR Title	Submitter	Final Decision
Adopted	973	Clarification for new resources under construction net qualifying capacity	San Diego Gas and Electric Company	ISO will adopt the BPM change with modifications to accommodate SDG&E's concern.
Adopted	974	Settlement BPM and charge code updates for T+33M settlement statement implementation	California ISO	The ISO will adopt the BPM change as proposed in the recommendation.
Adopted	976	Generating facility project phases sharing transformers	Large-Scale Solar Association	The ISO will adopt the BPM change as modified
Rejected	977	Stand-alone network upgrade clarifications	Large-Scale Solar Association	The ISO rejects this BPM PRR, as it is a policy change request and recommends the topic be included in a future interconnection process enhancement initiative.
Adopted	978	Update charge code 7077 and charge code 7087 to reflect correct unit of measure for inputs that convey resource-specific real time dispatch flexible ramp uncertainty movement and balancing authority area level uncertainty	California ISO	The ISO will adopt the BPM change as proposed in the recommendation.
Adopted	979	Update pre-calculation start-up and minimum load cost to resolve an issue that relates to the qualification of real time market transition cost for a multi-stage generating resource	California ISO	The ISO will adopt the BPM change as proposed in the recommendation.
Adopted	984	Hourly block schedule difference calculation	California ISO	Adopt the recommendation as originally issued.
Adopted	985	Power balance constraint relaxation	California ISO	Adopt the recommendation as originally issued.
Adopted	986	Update resource adequacy availability incentive mechanism assessment hours	California ISO	The ISO will adopt the BPM change as modified
Adopted	987	Resource adequacy availability incentive mechanism updated calculations and business rules for reliability demand response resource, long start, and extremely long start resources	California ISO	The ISO will adopt the BPM change as proposed in the recommendation.

Adopted or Rejected	PRR Number	PRR Title	Submitter	Final Decision
Adopted	988	Update configuration guides to ensure that balancing authority area(s) which has declared a market interruption are not assessed over and under-scheduling EIM over and under-scheduling EIM allocation during the market interruption periods	California ISO	The ISO will adopt the BPM change as proposed in the recommendation.
Adopted	989	Updated BPM configuration guides for pre-calculation residual unit commitment no pay quantity to accommodate the fact that the residual unit commitment no pay calculations were incorrectly did not incorporate the fifteen minute market minimum load energy quantity implemented with FERC 764 on 5/1/2014	California ISO	The ISO will adopt the BPM change as proposed in the recommendation.
