Re: Business practice manual change management report

This memorandum does not require ISO Board of Governors action.

As required by the Federal Energy Regulatory Commission, Management provides this report to inform the ISO Board of Governors on the status of the business practice manual (BPM) change requests submitted by stakeholders and/or the California Independent System Operator Corporation.

Both the ISO and stakeholders use the same electronic system and process to submit and track proposed changes to the BPMs. The process includes stakeholder review, ISO approval or rejection, and a possible appeal to the BPM Appeals Committee, which is comprised of three ISO officers.

As of October 20, 2023, the following table represents the active Proposed Revision Requests (PRRs) in the BPM change management system.

Business Practice Manual (BPM)	# of PRR's
Congestion Revenue Rights	1
Credit Management and Market Clearing	1
Energy Imbalance Market	3
Managing Full Network Model	1
Market Instruments	5
Market Operations	7
Reliability Requirements	1
Settlements and Billing	4
Total:	23

* Comparing total to the BPM Attachment: eighteen (18) active PRRs are in the initial or recommendation stage and five (5) are in the final decision stage.

PROCESS OVERVIEW

The ISO held one (1) monthly BPM change management stakeholder meeting since the submittal of the previous Board report. There was a stakeholder meeting on September 26, 2023, in which twenty-eight (28) stakeholders participated. Based on stakeholder comments during the meetings and comments entered into the BPM change management electronic system, it appears that stakeholders are generally satisfied with the process.
