

Computer-based Training (CBT) Request Form

Company Name:

Requestor Name:

Date:

Review the list of CBT modules in our [online catalog](#) and check the boxes next to the courses your organization would like to receive via SCORM-compliant thin packages. Open a CIDI ticket and attach your completed form. Requestors must be a CAISO customer or certified Scheduling Coordinator to receive CBT thin package files.

What is a thin package?

CAISO's content distribution platform enables secure and efficient sharing of CBT modules through thin packages. These thin packages allow you to launch CAISO-hosted training modules directly from your own organization's LMS, ensuring your learners always access the most up-to-date content and eliminating the need to embed or duplicate content locally.

Scheduling Coordinator Training
