

# Transmission Development Forum

## Cost Information – Potential Sources

Christine Root – Project and Program Supervisor  
Energy Division

California Public  
Utilities Commission

# Scope of the Transmission Development Forum

- The purpose of these meetings is to create a single forum to track the status of transmission network upgrade projects that affect generators and all other transmission projects approved in the CAISO's transmission planning process.
- The purpose of this forum is not to discuss project cost information.

# Where to get project cost information

- PG&E Stakeholder Transmission Asset Review (STAR) Process
- SCE Stakeholder Review Process (SRP)
- TO5 Evaluation of SDG&E's Forecast Period Capital Additions (not publicly available)
- AB 970 Reports (note that SCE's SRP includes SCE's AB 970 report information)

# Pacific Gas & Electric

- PG&E Stakeholder Transmission Asset Review (STAR) Process – Transmission projects only semi-annually until the end of 2023
  - <https://pgera.azurewebsites.net/Regulation/NewSearchResults>
    - For the latest STAR Process project data spreadsheet, scroll down to Attachment 1 dated 6/1/2022.
- Wide cost range of interconnection-related network upgrades in quarterly AB 970 Reports
- After 2023, potentially just AB 970 Reports

# Southern California Edison

- Stakeholder Review Process (SRP) – both transmission projects over \$1M and interconnection-related network upgrades semi-annually until the end of 2023
- <https://www.sce.com/regulatory/open-access-information/srp>
- After 2023, potentially just AB 970 Reports

# San Diego Gas & Electric

- TO5 Evaluation of SDG&E's Forecast Period Capital Additions – transmission projects annually. SDG&E's transmission data provided pursuant to its TO5 settlement (FERC Docket No. ER19-221) is not publicly available.
- Only “interested parties” who have intervened in that FERC Docket and have signed the protective order (i.e., NDA) for that docket have access to the data
- Wide cost range of interconnection-related network upgrades in quarterly AB 970 Reports
- After expiration of TO5 formula, AB 970 reports only

**Currently, the only long-term source of cost information for all three utilities is the AB 970 Report.**
