

## DC Energy Comments on Stakeholder Initiatives Catalog

Submitted by	Company	Date Submitted
Seth Cochran seth.cochran@dc-energy.com	DC Energy	November 17, 2016

DC Energy appreciates the opportunity to provide comments on the California Independent System Operator (CAISO), November 4, 2016 Draft 2017 Stakeholder Initiatives Catalog.

We strongly support those initiatives that improve existing market structures and support the goals of transparency, liquidity, and equitability. As a result, we submit the same rankings as those put forward in the Western Power Trading Forum comments on the Draft 2017 Stakeholder Initiatives Catalog. The WPTF's comments support many of the CAISO's highly-ranked initiatives (such as the Real-Time Market Enhancements) and also detail which of those are best to carry forward with given the timeline available in 2017.
