

December 05, 2017 Exceptional Dispatch CPM Designation Report**Designation Summary:**

The ISO issued an Exceptional Dispatch Capacity Procurement Mechanism (CPM) designation to MNDALY_7_UNIT 1, MNDALY_7_UNIT 2, and MNDALY_7_UNIT 3 from 12/05/2017 to 02/02/2018. The CPM designation is a 60-day term under the Exceptional Dispatch CPM provisions of the tariff to address a reliability issue in a specific geographic area.

Duration and Cost:

RESOURCE_ID	MW	ED Code	Estimated CPM Cost
MNDALY_7_UNIT 1	215	Local Reliability Issue	\$2.7M
MNDALY_7_UNIT 2	215	Local Reliability Issue	\$2.7M
MNDALY_7_UNIT 3	130	Local Reliability Issue	\$1.6M

The estimated capacity cost is based on the applicable monthly soft offer cap of \$6.31/kw-month.

Reason for CPM:

The ISO issued the designation to manage transmission conditions and load serving capability in the Ventura area. The ISO identified the need for the Mandalay units to enhance and protect the local area stability and the load serving capability in the Santa Clara sub-area within the SCE TAC area for a potential multiple contingency event due to the Thomas fire. Based on application of the relevant factors in section 43A.2.5.2.1 of the ISO tariff, the ISO had to designate the above CPM.
