Transmission  
Owner**

# Management recommends approval of the GridLiance West application

- GridLiance met the application requirements
  - Transmission lines and associated facilities are currently under ISI operational control and part of the ISO controlled grid
  - No ISO breach of applicable reliability criteria and WECC requirements
  - No objections from the ISO
  - GridLiance West can perform obligations under the TCA
  - Applicable regulatory approvals will be obtained
- GridLiance will re-enforce the ISO's interconnection with GridLiance West and Valley Electric at the Eldorado substation.
