Default load aggregation point (DLAP) selection:

This is used for adding DLAP to new or existing SCIDs. It also used to end date (remove) the LAP from specific SCIDs. This is used specifically for load.

To submit documentation, please review
http://www.caiso.com/Documents/How-to-Submit-Documentation-for-Applications-and-Ongoing-Obligations.pdf

IMPORTANT: New load needs to submit a settlement quality meter data (SQMD) template for approval prior to the DLAP effective date / initial load scheduling date. The SQMD process can take 40 days.
5750 Settlement Quality Meter Data (SQMD) Plan – Submission and Approval Process

PLEASE NOTE: A Change In Default LAP may affect Demand Response participation in the ISO market. The LSE will need to communicate the DLAP change to any demand response providers they are aware of.

All submission must adhere to Master File Data Freeze notifications:
https://www.caiso.com/market-operations/network-resource-modeling

Letter templates must be printed on applicable letterhead, signed, scan as a pdf.

DLAP Changes effective date should be 11 business days from date on letter.

More than 30 days early submissions will not be processed.
