

Dynegy Comments on the September 2010 Draft Catalogue of Market Design Initiatives

Submitted By	Company	Date
Brian Theaker	Dynegy	October 4, 2010

Dynegy appreciates that the CAISO has maintained and updated the Catalogue of Market Initiatives. However, the value of maintaining the catalog of initiatives without also maintaining the process for ranking those initiatives is not apparent. Dynegy looks forward to the CAISO re-ranking the initiatives as soon as possible. Dynegy hopes the ranking process will provide market participants with a fully transparent and reliable schedule for implementing market initiatives, and that new market initiatives will not disrupt previously established timelines, especially FERC-mandated timelines.
