The CAISO seeks stakeholder input on the following:

1. Do you support the ISO's final proposal to change the market usage forward energy charge calculation to:

Max [abs(Generation+Imports),abs(Load+Exports)]

Yes. Dynergy strongly supports this implementing this proposal as an interim measure until the CAISO and stakeholders perform a full cost-of-service study and the CAISO implements a revised Grid Management Charge. Dynergy encourages the CAISO to undertake this cost-of-service study as soon as possible so this interim rate is short-lived.

Dynergy appreciates the CAISO's efforts to implement a MU-FE charge that better reflects cost-causation principles.
