

February 6 2017 Exceptional Dispatch CPM Designation Report

Designation Summary:

The California ISO issued an Exceptional Dispatch Capacity Procurement Mechanism (CPM) designation to Pio Pico Unit 2 (PIOPIC_2_CTG2) for a system reliability need. The designation is effective February 6, 2017 for a duration of 30 days.

Duration and Cost:

RESOURCE_ID	MW	ED Code	Estimated CPM Cost
PIOPIC_2_CTG2	50	system emergency	\$315,500

The estimated capacity cost is based on the applicable monthly soft offer cap of \$6.31/kw-month.

Reason for CPM:

The ISO issued an Exceptional Dispatch CPM designation to Pio Pico Unit 2 under the Exceptional Dispatch CPM tariff provisions to address a system reliability issue. A transmission line forced out of service, coupled with the loss of multiple generating units, caused a large negative area control error (ACE) for the California ISO Balancing Authority Area. Pio Pico Unit 2 was exceptionally dispatched to aid in responding to the negative ACE event.
