

## **Market Notice**

*February 13, 2004*

### **Preparatory Rerun Update**

#### **ISO SC Settlements Contacts:**

The ISO internal verification process has identified issues with the rerun production that has delayed rerun statement publishing this week as noted in earlier market notices. The ISO will not publish additional statements or CDs until the issues are resolved to our satisfaction. We will notify you early next week regarding restart of statement publishing.

For any questions, please contact your Account Manager.
