Comments and Questions **Draft Tariff Language Pertaining to** **2019 Cost of Service Study and 2021 GMC Update**

The City of Santa Clara, California, dba Silicon Valley Power (“SVP”) and the Modesto Irrigation District (“MID”) thank the California Independent System Operator Corporation (“CAISO”) for the opportunity to submit comments and questions in connection with the CAISO’s Draft Tariff Language pertaining to the CAISO’s Draft 2019 Cost of Service Study and 2021 Grid Management Charge (“GMC”) Update, and upcoming July 29, 2020 webconference. SVP and MID raise the following question, which they request the CAISO to answer at the July 29, 2020 webconference:

- During the CAISO’s June 24, 2020 presentation concerning the Draft 2019 Cost of Service Study and 2021 GMC Update, there was discussion regarding a \$4,000 increase in the CRR Application Fee (to \$5,000). Where is that proposed increase reflected, if at all, in the posted, draft Tariff language? If it is not reflected in the draft Tariff language, does the CAISO intend to reflect that increase elsewhere in its policies/procedures/manuals?
