The Honorable Debbie-Anne Reese
Secretary
Federal Energy Regulatory Commission
888 First Street, NE
Washington, DC 20426

**Re: California Independent System Operator Corporation,
Docket No. ER06-615-____
Informational Filing per CAISO Tariff Sections 30.4.5.4.5 and 39.7.1.3.2.2
Request for Privileged Treatment Under 18 C.F.R Section 388.112**

Dear Secretary Reese:

The California Independent System Operator Corporation (CAISO) submits this informational filing for negotiated default energy bids, variable operations and maintenance adders, and opportunity costs for the month of May 2026. In these reports, the CAISO includes information on new, revised, or terminated rates and formulas that were implemented in the preceding month. In May 2026, the CAISO implemented eight new negotiated default energy bids (Attachment A); terminated one opportunity cost adder (Attachment B); and implemented four new and terminated one variable operations and maintenance adders (Attachment C). There were no revised or terminated negotiated default energy bids, no new or revised opportunity cost adders, and no revised variable operations and maintenance adders in May 2026.¹

Section 20.2 of the CAISO tariff requires that the CAISO treat individual bids from scheduling coordinators as confidential. Negotiated default energy bids and start-up and minimum load costs, which include variable operations and maintenance adders, are components of bids. Accordingly, pursuant to section 20.2 of the CAISO tariff, the CAISO has labeled the documents included with this filing as confidential. In addition, the documents contain proprietary information regarding specific generating units, such as unit efficiency factors, scaling factors, and operation and maintenance costs. For these reasons, the CAISO requests the Commission afford these attachments privileged treatment pursuant to Section 388.112 of the Commission's regulations.

¹ On January 1, 2022, the CAISO implemented new tariff rules applicable to variable operations and maintenance adders set forth in CAISO Tariff Section 30.4.5.4.5. The new variable operations and maintenance adders replace the major maintenance adders, and the custom operations and maintenance adders.

Please contact the undersigned if you have any questions or concerns regarding the foregoing.

Respectfully submitted,

By: /s/ Andrew Ulmer
