Re: California Independent System Operator Corporation
Docket No. EC01-14-000

Dear Secretary Boergers:

In response to a request from Commission Staff, the California Independent System Operator Corporation ("ISO") hereby informs the Commission of a cross-reference concerning two filings which the ISO has made. On November 1, 2000, the ISO submitted, in the above-referenced docket, an Application to Transfer Operational Control Over Non-Jurisdictional Transmission Facilities to the California Independent System Operator Corporation ("Application"). The Application included an Exhibit G and an Exhibit I, but no Exhibit H. The ISO now clarifies that Exhibit H to the Application is identical to the Transmission Control Agreement which the ISO submitted in Docket No. ER01-724-000 on December 21, 2000.

The Honorable David P. Boergers

Additionally, the ISO reiterates its request that the Commission approve the Application without condition, modification, or evidentiary, trial-type hearing. See Transmittal Letter for Application at 2. The ISO states that the submission of the Application means there is no need for the Commission to resolve any questions of jurisdiction concerning the Application.

Respectfully submitted,

Kenneth G. Jaffe
Bradley R. Miliauskas
On Behalf of the California Independent
System Operator Corporation
