

2012-2013 Transmission Planning Process Project Sponsor Competitive Solicitation

List of Project Sponsor Proposals Received for the Policy Driven Sycamore Canyon-Penasquitos 230kV Line Transmission Element

As part of the 2012-2013 transmission planning process, the ISO identified a reliability-driven element with additional policy benefits with capital costs of between \$111 and \$221 million for the San Diego area. This resulted in a competitive solicitation process for project sponsor selection. The two month window for interested project sponsors to submit applications to build and own the approved policy driven **Sycamore Canyon-Penasquitos 230kV Line** transmission element opened on April 1, 2013 and closed on June 3, 2013.

Pursuant to section 24.5.2 of the ISO tariff and section 5.2 of the BPM for the Transmission Planning Process, the ISO received four project sponsor proposals for the policy driven **Sycamore Canyon-Penasquitos 230kV Line** transmission element. These were submitted by the following entities:

- Abengoa T&D
- Elecnor, Inc
- San Diego Gas & Electric Co.
- Trans Bay Cable LLC

The description and functional specifications for the policy driven **Sycamore Canyon-Penasquitos 230kV Line** transmission element can be found on the ISO website at: <http://www.caiso.com/Documents/Description-FunctionalSpecificationsSycamore-Penasquitos230kVLine.pdf>
