**Re: California Independent System Operator Corporation  
Compliance Filing  
Docket No. ER15-1825-000**

Dear Secretary Bose:

The California Independent System Operator Corporation (“CAISO”) submits this filing in compliance with the Commission’s February 24, 2016, order issued in this proceeding.<sup>1</sup>

### **I. Background and Discussion**

The February 24 order accepted the CAISO’s February 4, 2016, petition for limited tariff waiver to delay implementation of phase 1A of the two-phase reliability services initiative (RSI). The tariff provisions relevant to RSI phase 1A had an effective date of March 1, 2016. The CAISO’s February 4 petition requested a waiver of the provisions until April 1, 2016. As a result of new events that occurred after the initial February 4 petition was filed, and in response to market participant concerns, the CAISO updated its requested delay so that RSI phase 1A would not go into effect until May 1, 2016. The February 24 order granted the requested May 1 delay. The order additionally requires the CAISO to submit a compliance filing within 15 days revising the effective date of the tariff provisions covered by the waiver to reflect the revised May 1, 2016, implementation date.<sup>2</sup> The CAISO hereby submits this compliance filing consistent with the Commission’s directive. Specifically, all tariff revisions accepted by the Commission in its October 1, 2015, order in this proceeding,<sup>3</sup> with the exception of sections 40.2.4, 40.10.5.1(a), and 40.10.5.1.1, will now have an effective date of May 1, 2016.

## II. Attachments

The purpose of this filing is only to revise the effective date for the affected tariff records and no tariff language is being changed. Accordingly, no clean or marked tariff attachments are included with this filing.

## III. Conclusion

The CAISO respectfully requests that the Commission find that this filing is in compliance with the February 24 order. If there are any questions regarding this filing, please feel free to contact the undersigned.
