

Market Notice

May 24, 2004

Preparatory Rerun Schedule and Rerun on hold status

ISO SC Settlements Contacts:

The ISO will not resume the Preparatory Rerun today, May 24th, 2004, as specified in its May 19th Status Report to FERC. The reason for this delay is due to internal system issues, which we are working to resolve.

We will notify participants when the rerun will resume.

For any questions, please contact your Account Manager.
