### Bi-Weekly Market Performance Report

The CAISO posted the bi-weekly market performance report for July 16-29, 2025. The day-ahead market was generally quiet. The maximum day-ahead cleared demand was 41,450 MW and the maximum day-ahead DLAP price was \$60.96/MWh for the two weeks. The reasons for the price excursions in the fifteen-minute and five-minute markets are documented.

### Price Correction Review

Starting on July 10, 2025, there have been corrections impacting the WEIM Balancing Authority PNM due to a data input error in the network model. For the day-ahead market trade date August 4, 2025, the ISO will correct the shadow price on 30300\_TABLMTN\_230\_38635\_THMJCT1\_230\_BR\_1\_1 due to incorrect enforcement of that constraint. Price Correction Messages are posted on OASIS under Atlas Reference → Messages → Price Correction Messages.

### General Questions

None.
