Bi-Weekly Market Performance Report

The CAISO posted the bi-weekly market performance report for August 26-Sep 08, 2026. The maximum day-ahead DLAP price was \$170.53/MWh for the two weeks and the maximum day-ahead ELAP was \$144.54. The reasons for CAISO price excursions in the fifteen-minute and five-minute markets are documented in the report.

Price Correction Review

The CAISO has been correcting invalid congestion on IPPUTAH_ITC in RTD due to a software defect. For several IFM and RUC trade dates, invalid congestion on CASCADE_ITC and PACW_CRAG_ITC was corrected for a data input error.

Price Correction Messages are posted on OASIS under Atlas Reference → Messages → Price Correction Messages.
