Bi-Weekly Market Performance Report

The CAISO posted the bi-weekly market performance report for March 27 – April 9, 2024. The maximum day-ahead cleared demand was 26,020 MW and the maximum day-ahead DLAP price was \$72.71/MWh for the two weeks. The reasons for the price excursions in the fifteen-minute and five-minute markets are documented.

Review of the Price Correction Report

During the week of April 1-5, 2024, there were no price corrections. During the week of April 8-12, 2024, the CAISO processed four intervals for price correction due to a software defect.

General Questions

None

¹ The California ISO (CAISO) hosts this bi-weekly market update conference call, generally at 10:15AM PST bi-monthly on Thursdays. This call is an opportunity for market participants to ask general questions regarding the market. Please send any questions to [CIDI system](#), which includes questions that have proprietary information and that might be commercially sensitive.
