Bi-Weekly Market Performance Report

The ISO posted the bi-weekly market performance report for June 8 through June 21, 2022. During this period, markets were generally quiet. The maximum day-ahead cleared demand was 43,980 MW for the two weeks. The Maximum day-ahead DLAP price was \$270.70/MWh. The reasons for the price excursions in the fifteen-minute and five-minute markets are documented.

Review of the Price Correction Report

During the week of June 13-17, 2022, the ISO processed 36 intervals for price correction due to software defects. During the week of June 20-24, 2022, the ISO processed 24 intervals for price correction due to data input errors or software defects.

General Questions

Q: Can the ISO provide more details on the June 10 event where the ISO requested 100 MW of load shed in Northern California?

A: The event is currently under the internal review by the ISO. The ISO will provide more information at the Sep 27 Market Planning and Performance Forum

¹ The California ISO (CAISO) hosts this bi-weekly market update conference call, generally at 10:15AM PST bi-monthly on Thursdays. This call is an opportunity for market participants to ask general questions regarding the market. Please send any questions to [CIDI system](#), which includes questions that have proprietary information and that might be commercially sensitive.
