The ISO will include an analysis of the September heat wave in the September Summer Report and will host a call in October.

Bi-Weekly Market Performance Report

The ISO posted the bi-weekly market performance report for September 14 through September 27, 2022. During this period, markets were generally quiet. The maximum day-ahead cleared demand was 42,840 MW for the two weeks. The Maximum day-ahead DLAP price was \$267.90/MWh. The reasons for the price excursions in the fifteen-minute and five-minute markets are documented.

Review of the Price Correction Report

During the week of Sep 19-23, 2022, the ISO processed 33 intervals for price correction due to software defects and data input errors. During the week of Sep 26-30, 2022, the ISO processed 24 intervals for software defects and data input errors.

General Questions

None

¹ The California ISO (CAISO) hosts this bi-weekly market update conference call, generally at 10:15AM PST bi-monthly on Thursdays. This call is an opportunity for market participants to ask general questions regarding the market. Please send any questions to [CIDI system](#), which includes questions that have proprietary information and that might be commercially sensitive.
