

**UNITED STATES OF AMERICA
BEFORE THE
FEDERAL ENERGY REGULATORY COMMISSION**

Geysers Power Company, LLC)

Docket No. ER02-236-000

**MOTION OF THE CALIFORNIA INDEPENDENT
SYSTEM OPERATOR CORPORATION TO ESTABLISH A
JANUARY 1, 2002 REFUND DATE**

In accordance with Rule 212 of the Federal Energy Regulatory Commission's (Commission) Rules of Practice and Procedure, 18 C.F.R. §§ 385.212 (2001), the California Independent System Operator Corporation (ISO) respectfully requests that the Commission establish a January 1, 2002 refund date in the above-captioned docket, in which Geysers Power Company, LLC (Geysers) filed an annual update with proposed changes to their Must Run Service Agreements (MRSA) with the ISO.

On October 31, 2001, Geysers submitted an annual update filing (Geysers filing) to the Commission to comply with certain provisions of the Reliability Must-Run (RMR) contracts between Geysers and the ISO. In the Filing, Geysers proposed changes to the cost information that serves as the basis for certain formula rates payable under RMR contracts. On November 21, 2001, the ISO filed a joint motion to intervene and protest in this matter with the Pacific Gas and Electric Company (PG&E).

In the November 21 motion to intervene and protest, the ISO and PG&E noted that certain proposed rates are subject to the outcome in a separate proceeding, Docket ER02-64-000, and noted some additional problems requiring

correction in the Geysers filing. The November 21 motion to intervene and protest suggested that rates subject to the outcome of ER02-188-000 should either be rejected, be accepted subject to refund consistent with the outcome of ER02-188-000, or should be severed from this proceeding and consolidated with ER02-188-000. In this motion, the ISO urges the Commission to establish a January 1, 2002 refund date for all rates under consideration in this proceeding. This step is necessary to ensure that the ISO, Responsible Utilities and consumers do not pay unduly elevated rates while issues associated with the Geysers filing are resolved. The ISO is aware of at least one case in which issues associated with a filing of the instant type for 2001 are still outstanding, ER01-812-001, a case which involves Geysers. To ensure that the ISO, Responsible Utilities and consumers are protected in the case of delays in resolution of outstanding issues in this proceeding, the ISO respectfully requests the Commission to establish a January 1, 2002 refund date.

WHEREFORE, the ISO respectfully requests that the Commission establish a January 1, 2002 refund date in this proceeding.

Respectfully submitted,

Jeanne M. Solé
