

## **II. BACKGROUND**

On December 23, 2002, San Diego Gas & Electric Company filed Original Volume No. 7 to its Transmission Owner Tariff, superseding Volume No. 6 in its entirety. Volume No. 7 incorporates changes resulting from prior Commission orders that accepted for filing SDG&E's revised generator interconnection procedures, revised Reliability Must Run rates, and Supplemental Transmission Surcharge Rates for upgrades to its Imperial Valley-La Rosita transmission line and the costs of increased security for its transmission system. Along with these approved changes, SDG&E has eliminated certain rate schedules and added a new schedule with the approval of the California Public Utilities Commission, eliminated references to the California Power Exchange, eliminated Ancillary Services it no longer offers since divestiture of its generation assets, and updated the contact information for regulatory filings.

By its Notice issued December 30, 2002, the Commission established January 13, 2003 as the date motions to intervene are to be filed in the above-captioned proceeding.

## **III. BASIS FOR MOTION TO INTERVENE**

The ISO is a non-profit public benefit corporation organized under the laws of the State of California and responsible for the reliable operation of a grid comprising the transmission systems of Pacific Gas & Electric Company, Southern California Edison Company, San Diego Gas & Electric Company and the Cities of Vernon, Anaheim, Azusa, Banning and Riverside, California. As the operator of this grid, the ISO believes that it has a unique interest in any

Commission proceeding concerning the issues raised in the captioned proceeding.

#### **IV. CONCLUSION**

For the foregoing reasons, the ISO respectfully requests that the Commission permit it to intervene, and that the ISO be accorded full party status in this proceeding.

Respectfully submitted,
