II. BACKGROUND

On September 2, 2004, Southern California Edison (SCE) submitted for proposed revisions to SCE's Transmission Owner Tariff, FERC Electric Tariff, Second Revised Volume No. 6, Appendix VI, to increase SCE's Reliability Services Revenue Requirement and Reliability Services rates.

By its Notice issued September 9, 2004, the Commission established September 23, 2004, as the date motions to intervene are to be filed in the above-captioned proceeding.

III. BASIS FOR MOTION TO INTERVENE

The ISO is a non-profit public benefit corporation organized under the laws of the State of California and responsible for the reliable operation of a grid comprising the transmission systems of Pacific Gas & Electric Company, Southern California Edison Company, San Diego Gas & Electric Company and the Cities of Vernon, Anaheim, Azusa, Banning and Riverside, California. As the operator of this grid, the ISO believes that it has a unique interest in any

Commission proceeding concerning the issues raised in the captioned proceeding.

IV. CONCLUSION

For the foregoing reasons, the ISO respectfully requests that the Commission permit it to intervene, and that the ISO be accorded full party status in this proceeding.

Respectfully submitted,
