II. DESCRIPTION OF THE ISO AND COMMUNICATIONS

The ISO is a non-profit public benefit corporation organized under the laws of the State of California with a principal place of business at 151 Blue Ravine Road, Folsom, CA 95630. The ISO is the Control Area operator responsible for the reliable operation of the electric grid comprising the transmission systems of a number of utilities including San Diego Gas and Electric Company (“SDG&E”), as well as the coordination of the ancillary services and real-time electricity markets in California.

The ISO requests that all communications and notices concerning this motion and these proceedings be provided to:

III. ISO’S INTEREST

Cabrillo I and Cabrillo II’s RMR Units are located within SDG&E’s transmission system and are needed to maintain the reliability of the ISO Controlled Grid. As the Control Area operator and as the counter party to the RMR Agreement, the ISO has a unique interest in any Commission proceeding that affects an RMR Agreement. Accordingly, the ISO has a direct and substantial interest in this proceeding and requests that it be permitted to intervene. Because no other party can adequately represent the ISO’s interests

in this proceeding, the ISO's intervention is in the public interest and should be granted.

IV. MOTION TO INTERVENE OUT OF TIME

Due to an administrative oversight, the ISO failed to file this motion by the date specified in the March 21, 2005, Notice of Filing. Given the early status of the proceeding, however, no party will be prejudiced by the granting of the motion.

V. CONCLUSION

For the foregoing reasons, the ISO respectfully requests that the Commission grant this Motion to Intervene and make the ISO a party in the above-caption proceeding with full rights of participation.

Dated: April 6, 2005

Respectfully submitted
