Subject: [EXTERNAL] Slide 11 - Border Sub area Daily Load Profiles and L-1 Load Serving Capability 2021

Dear California ISO Regional Transmission,

I am hoping that you can help me.

In your April 13, 2020 Presentation for the 2021 & 2025 Final LCR Study Results, Slide 11 **Border Sub area Daily Load Profiles and L-1 Load Serving Capability 2021** (see attached) is depicting the incorrect information for the **El Cajon** Sub area instead of the **Border** Sub area.

Can you please provide me with the correct chart for the Border Sub area for 2021?

Thanks,

Jeff Malone
