

NCPA Comments on 2012 GMC Draft Final Proposal

Northern California Power Agency (“NCPA”) provides the following comments regarding CAISO’s 2012 GMC Draft Final Proposal dated February 15, 2011. NCPA supports CAISO’s determination that it is appropriate to exclude MSS Load Following instructed imbalance energy from the Market Services GMC charge. NCPA also supports CAISO’s proposal to eliminate the three-year phase-in for the application of the System Operations charge to supply energy flows from the draft final proposal.
