

UNITED STATES OF AMERICA
FEDERAL ENERGY REGULATORY COMMISSION

California Independent System Operator
Corporation

Docket No. ER01-889-015

NOTICE OF EXTENSION OF TIME

(October 22, 2003)

On October 20, 2003, the California Generators, subsidiaries of Duke, Dynegy, Mirant, Reliant and Williams, (California Generators) filed a motion for an extension of time within which to file comments on the compliance filing made by the California Independent System Operator Corporation (ISO) on October 3, 2003, in the above-docketed proceeding. In its motion, California Generators state that an extension of time is necessary to permit parties to analyze the complicated settlements calculations contained in the ISO's compliance filing and to conduct informal information exchanges with the ISO regarding the filing. The motion also states that the ISO has authorized the California Generators to state that it does not oppose the requested extension of time.

Upon consideration, notice is hereby given that an extension of time for the filing of comments to the ISO's October 3, 2003 compliance filing is granted to and including November 14, 2003, as requested by the California Generators.
