

UNITED STATES OF AMERICA
FEDERAL ENERGY REGULATORY COMMISSION

California Independent System Operator
Corporation

Docket No. ER02-1656-015

NOTICE OF EXTENSION OF TIME

(August 7, 2003)

On August 4, 2003, the Joint Movants¹ filed a motion for an extension of time for the filing of interventions and protests in response to the amendment of the California Independent System Operator Corporation (ISO) to its Comprehensive Market Design Proposal filed on July 22, 2003, in the above-docketed proceeding. ISO's amendment seeks approval of its market redesign proposal. In its motion, Joint Movants state due to the vacation season and the absence of key personnel, additional time is needed to prepare and file a response to the ISO's proposal. The motion also states that granting an extension will ensure that all stakeholders are allowed adequate time to provide substantive comments to the Commission. Further, the motion asserts that the Public Utilities Commission of the State of California has indicated that they do not oppose the request for additional time.

Upon consideration, notice is hereby given that an extension of time to file interventions and protests to the ISO's amendment filed July 22, 2003, is granted to and including August 27, 2003.

Linda Mitry
