## **II. DESCRIPTION OF THE CAISO AND COMMUNICATIONS**

The CAISO is a non-profit public benefit corporation organized under the laws of the State of California with a principal place of business at 151 Blue Ravine Road, Folsom, CA 95630. The CAISO is the Control Area operator responsible for the reliable operation of the electric grid comprising the transmission systems of a number of utilities including Southern California Edison Company (“SCE”), as well as the coordination of the ancillary services and real-time electricity markets in California.

The CAISO requests that all communications and notices concerning this motion and these proceedings be provided to:

## **III. CAISO’S INTEREST AND DISCUSSION**

Williams’ RMR Units are located within SCE’s transmission system and have been needed to maintain the reliability of the CAISO Controlled Grid. As the Control Area operator and as the counter party to the RMR Agreement, the CAISO has a unique interest in any Commission proceeding that affects an RMR Agreement. Accordingly, the CAISO has a direct and substantial interest in this proceeding and requests that it be permitted to intervene. Because no other

party can adequately represent the CAISO's interests in this proceeding, the CAISO's intervention is in the public interest and should be granted.

Based on the fact that SCE has procured adequate Local Area Resource Adequacy Resources, the CAISO has determined that it no longer needs this resource to provide reliability services under the RMR Agreement. Accordingly, the CAISO notified Williams that it would not be extending the term of the RMR Agreement and requested Williams to file a Notice of Cancellation, to which the CAISO does not object.

#### **IV. CONCLUSION**

For the foregoing reasons, the CAISO respectfully requests that the Commission grant this Motion to Intervene and make the CAISO a party in the above-caption proceeding with full rights of participation.

Dated: November 22, 2006

Respectfully submitted
