III. CAISO’S INTEREST

Miramar Energy Center Facility (“Facility”) is located within SDG&E’s transmission system and has been needed to maintain the reliability of the ISO Controlled Grid. As the Control Area operator and as the counter party to the RMR Agreements, the CAISO has a unique interest in any Commission proceeding that affects an RMR Agreement. Accordingly, the CAISO has a direct and substantial interest in this proceeding and requests that it be permitted to intervene. Because no other party can adequately represent the CAISO’s interests in this proceeding, the CAISO’s intervention is in the public interest and should be granted.

Based on the fact that SDG&E has procured adequate Local Area Resource Adequacy Resources, the CAISO has determined that it no longer needs this resource to provide reliability services under the RMR Agreement. Accordingly, the CAISO notified SDG&E that it would not be extending the term of the RMR Agreement and requested SDG&E to file a Notice of Cancellation, to which the CAISO does not object.

IV. MOTION TO INTERVENE OUT OF TIME

Due to an administrative oversight, the CAISO failed to file this motion by the date specified in the November 7, 2006, Combined Notice of Filings. Given the early status of the proceeding, however, no party will be prejudiced by the granting of the motion.

V. CONCLUSION

For the foregoing reasons, the CAISO respectfully requests that the Commission grant this Motion to Intervene and make the CAISO a party in the above-caption proceeding with full rights of participation.

Dated: November 27, 2006

Respectfully submitted

/s/ Sidney Mannheim Davies
