Objectives

This meeting has two general objectives:

- Discuss the methodology of the “existing fleet” 20% RPS study and explain scope of remaining analyses
- Create consensus around the objectives/expected outputs/scope of the California ISO’s 2009 renewable integration study efforts, including, but not limited to the following:
 - What are the questions the CAISO should be answering and how should the results be presented to facilitate industry and regulatory decision making regarding infrastructure investments to support 33% RPS?
 - How the study efforts fit together and should the scope of particular studies be modified?
 - The source of the 33% resource build out scenarios
 - Process for going forward for stakeholder input
