**Re: California Independent System Operator Corporation
Filing to Comply with Order No. 676-K
Docket No. ER25-2603-____**

Dear Secretary Reese:

The California Independent System Operator Corporation ("CAISO")¹ submits this filing in compliance with the Commission's Order on Request for Waivers, issued September 25, 2025 ("Waiver Order").² In Order No. 676-K,³ the Commission directed public utilities, including the CAISO, to incorporate in their jurisdictional tariffs the latest version (Version 004) of the business practice standards promulgated by the Wholesale Electric Quadrant ("WEQ") of the North American Energy Standards Board ("NAESB") and included by reference in the Commission's regulations.

¹ Capitalized terms not otherwise defined herein have the meanings set forth in appendix A to the CAISO tariff.

² *Order on Request for Waivers*, Docket No. ER25-2603-000 (September 25, 2025), 192 FERC ¶ 61,248 ("Waiver Order").

³ *Standards for Bus. Practices & Comm'n Protocols for Pub. Utils.*, Order No. 676-K, 190 FERC ¶ 61,116 (2025).

The CAISO filed for waiver of certain of these standards, which the Commission granted in its Waiver Order. As part of that order, the Commission directed the CAISO to make a compliance filing within 30 days of the date of the order, to revise section 7.3.3 of its tariff to indicate those Business Practice Standards for which the Commission has granted waiver, and for each of those Business Practice Standards granted waiver, to include a citation to the order granting the request for waivers.⁴

The CAISO accordingly requests that the Commission accept the enclosed tariff revisions in compliance with the Commission's Waiver Order, effective February 27, 2026 as to the NAESB cybersecurity standards and August 27, 2026 as to the remaining NAESB Version 004 standards.

I. Background

In Order No. 676-K, the Commission amended its regulations to incorporate by reference the latest version (Version 004) of specified business practice standards that NAESB filed with the Commission on July 31, 2023.⁵ The Version 004 NAESB standards include newly created standards, as well as modifications to existing standards, developed through the NAESB standards development process.

The Version 004 standards include standards developed in response to the directives from Order Nos. 676-I and 676-J, business practice standards developed to support cybersecurity for the wholesale electric industry, modifications to complement the NERC Reliability Standards, the new NAESB Base Contract for Sale and Purchase

⁵ Order No. 676-K at P 6.

of Voluntary Renewable Energy Certificates, and standards to identify definitions for common grid services to support distributed energy resource interactions in response to a request submitted by the DOE, Lawrence Berkeley National Laboratory, and Pacific Northwest National Laboratory.⁶ Additionally, the WEQ Version 004 Standards include modifications applied to Open Access Same-Time Information Systems (OASIS) Business Practice Standards, the Coordinate Interchange Business Practice Standards, and the Abbreviations, Acronyms, and Defined Terms.⁷

The Commission directed public utilities to submit a single compliance filing by June 27, 2025 that includes two separate tariff records in eTariff: (1) the first record must include a reference to the WEQ Version 004 NAESB cybersecurity standards with a proposed effective date of February 27, 2026; and (2) the second record must refer to all the WEQ Version 004 standards adopted in Order No. 676-K with an effective date of August 27, 2026.⁸ The public utility must also include in its compliance filing any new waiver requests to comply with a part of Order No. 676-K or requests to preserve any existing waivers.⁹

CAISO submitted its compliance filing and petition to waive certain of these standards on June 24, 2025. On September 25, 2025, the Commission issued its Waiver Order, granting CAISO's requests for waiver. Specifically, the Commission

⁹ Order No. 676-K at P 47.

granted the CAISO's requests for comprehensive renewed waivers of the standards set forth in WEQ-002, WEQ-003, WEQ-013, and waiver of the provisions of WEQ-001, WEQ-012, and WEQ-023, consistent with prior waivers of these standards.¹⁰ The Commission also granted the CAISO's requests for waiver of the newly-adopted OASIS requirements within the NAESB standards that are specifically identified in the CAISO's transmittal.¹¹

The Commission directed the CAISO to make a compliance filing, within 30 days of the date of the Waiver Order, to revise section 7.3.3 of its tariff to indicate those standards for which the Commission has granted waiver, and for each of those standards granted waiver, to include a cite to the order granting the waiver requests.

II. Proposed Tariff Revisions

Adoption of the Version 004 NAESB standards set forth in Order No. 676-K does not require any changes or revisions to the existing provisions of the CAISO tariff.

Therefore, in accordance with Order No. 676-K, the CAISO has revised section 7.3.3 of its tariff to incorporate those NAESB standards by reference, using the referencing language prescribed in Order 676-K.

The CAISO also has revised tariff section 7.3.3 to list the Version 004 NAESB standards for which the CAISO has been granted a waiver and citing the Commission's Waiver Order, issued September 25, 2025.
