### Issue Paper & Straw Proposal

This template has been created for submission of stakeholder comments on the issue paper and straw proposal for the Generator Interconnection Driven Network Upgrade Cost Recovery initiative that was posted on August 1, 2016. The proposal and other information related to this initiative may be found at:

<http://www.caiso.com/informed/Pages/StakeholderProcesses/GeneratorInterconnectionDrivenNetworkUpgradeCostRecovery.aspx> .

Upon completion of this template, please submit it to [initiativecomments@caiso.com](mailto:initiativecomments@caiso.com). Submissions are requested by close of business on **August 19, 2016**.

If you are interested in providing written comments, please organize your comments into one or more of the categories listed below as well as state if you support, oppose, or have no comment on the proposal.

As a potential PTO in an expanded regional ISO, PacifiCorp recognizes the need to resolve this process using an accelerated schedule and appreciates consideration of these limited, general comments. As the ISO develops its proposal, PacifiCorp encourages the ISO to consider compatibility with and/or flexibility to account for any concepts or provisions (such as sub-regions and cost allocation methods) that are being contemplated in the regional TAC Options stakeholder process.
