Introduction

PG&E appreciates the opportunity to comment on the CAISO's Exempting Inter-SC Trades from CFTC Jurisdiction (Final Proposal). After review of the proposed tariff changes, PG&E believes that these proposed changes meet the criteria necessary to allow Inter-SC trades to be deemed exempt from CFTC jurisdiction. The stakeholder call and opportunity to provide final comments on proposed tariff changes was very much appreciated. The CAISO was responsive to all of PG&E's comments on the call. Given the answers provided by the CAISO on the call with the various participants, PG&E is comfortable with the proposed tariff changes. PG&E has no further comments.
