

Market Simulation Forum December 19, 2024

Martin Kraynov Market Simulation Coordinator

Overview

- Presentation Summary of Changes
- Market Simulation Overview
- Market Simulation MAP Stage Availability
- Market Simulation MAP Stage Code
- Market Simulation Activities
- Market Simulation Settlements (if needed)
- Market Simulation Initiatives Current
 - Congestion Revenue Rights (CRR) System Upgrade
 - FERC881 Track 2
- Market Simulation Initiatives Upcoming
 - Highest Emergency Rating (HER)
 - Enable Non-Generating Resources to Participate in Inter-SC Trade
 - Hybrid Resources Phase 2C (HR2C) RIMS
 - Transmission Exchange Agreement (TEA)
- Next Steps

Summary Of Changes: 12/19/24

- Deleted TSMSP2/3 slides as completed Market Simulation testing
- Updated Market Simulation Forum Calendar
- Updated CRR System Upgrade Market Simulation Meeting Schedule
- Updated CRR System Upgrade dates for Connectivity Testing, Market Simulation, and Production
- Updated Highest Emergency Rating (HER) dates for Unstructured Market Simulation, and Production
- Added new slide for FERC881 Market Simulation

Market Simulation Overview

- Covers activities in the MAP Stage environment
- MAP Stage is an integrated Production-like environment that is available to customers with provisioned access
- Allows customers to experience ISO release/project implementations prior to Production implementation
- Market Simulation will allow customers and the CAISO to conduct specific market scenarios in a test environment prior to the Production activation to ensure that all system interfaces are functioning as expected and to produce simulated market results
- Customers may also use MAP Stage to validate the interaction of customer-driven changes with the ISO systems

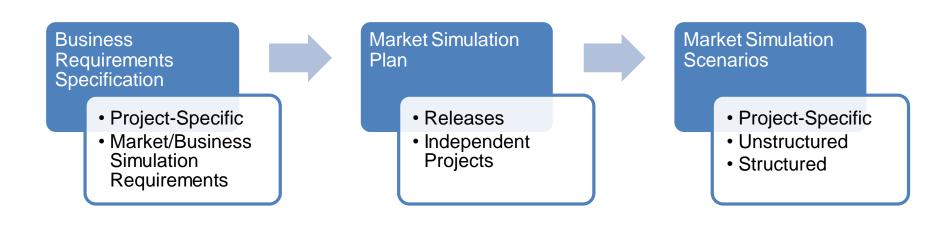

Reasons for Market Simulation

- **Rule impacts**: Generalized changes in market rules, bidding rules, settlements rules, market design changes, or other business rules.
- Interface changes: Changes that impact templates (RA Supply Plan, Master File RDT, etc.), User Interfaces (UI), Application Programming Interface (API) / Web Service.
- New/modified application/report: Changes that cause addition/modification of ISO systems or reports, especially when data input is required by the customer
- **New/modified system process**: Modification of data flow in systems, especially if the new/modified process requires the customer to demonstrate proficiency prior to Production
- **New/modified model data**: Addition or substantial modification of model data as a market solution or export provided by the ISO
- **New/modified user role**: The addition or modification of access permissions for a user role

CRR System Upgrade

- \checkmark Registration: by 9/30/24
- CRR Customer Partnership Group (CPG): Next CPG Thursday, January 23, 2025
- Multiple Training Sessions: From 10/28
- Access Provisioning: Ready for MAPSTAGE provisioning
 - CRR: EXTERNALCRR HOLDER READ-ONLY ACCESS
 - CRR: EXTERNALCRR HOLDER READ/WRITE ACCESS
 - CRR: EXTERNALCRR NDA REPORTS READ-ACCESS
 - CRR: EXTERNAL UTILITY DISTRIBUTION COMPANY (UDC) READ/WRITE ACCESS
 - CRR: EXTERNAL TRANSMISSION OWNERSHIP RIGHT (TOR) OWNER READ/WRITE ACCESS
 - CRR: EXTERNAL CALIFORNIA ENERGY COMMISSION (CEC) READ/WRITE ACCESS
- **Reminder:** OASIS Tech Specs include the new & modified reports (https://developer.caiso.com)

CRR System Upgrade – Market Simulation Timeline

Connectivity Testing:

- CRR Market Interface UI (MUI): 01/21/24-01/23/25
- B2B API (First): 01/21/25 01/23/25
- B2B API (Second): 01/24/25 01/31/25

Structured Market Simulation:

- Week 1: 02/04/25-02/06/25
- Week 2: 02/11/25-02/13/25
- Week 3: 02/18/25-02/20/25

Unstructured Market Simulation:

- Week 4: 02/25/25 02/27/25
- Week 5: 03/04/25 03/06/25

Production New Application Cutover: 03/25/25-03/27/25

Note: Refer to CRR Market Simulation Plan for Market Simulation Scenarios and a detailed Market Simulation Calendar.

Enable Non-Generating Resources to Participate in Inter-SC Trade

| Information | Details |
|---------------------|--|
| Source | 2024 Annual Policy Initiatives Roadmap Process |
| Category | Storage |
| Submission | Enable non-generating resources to participate in inter-SC trade |
| Summary | Allow non-generating resources to participate in inter-SC trade and offer physical energy product in order to continue effective integration of higher capacities of energy storage and meet RA and GHG compliance goals. |
| Description | In the current market design, standalone battery storage projects are not available to be selected in the "location" dropdown list for transactive physicals in IST. To continue effective integration of higher capacities of energy storage and meet RA and GHG compliance goals, the ISO should allow NGRs to participate in inter-SC trade and offer physical energy product. Enabling battery storage to participate in physical IST would increase market efficiency and reduce uncertainty in the preschedule window, and would allow battery storage to offer supplemental capacity or replacement energy through IST. |
| Presentation | May 15, 2024 |

Next Steps

- Work with your UAA to provision your organization's access to MAP Stage for access to the systems to execute Market Simulation
- Review BRS Market Simulation requirements, Market Simulation
 Plans, Market Simulation Scenarios and provide any feedback
- Register for participation in Market Simulation
- Attend the Release User Group Forums, every other week, for implementation updates, including active and upcoming Market Simulation activities
- During active Market Simulations, attend the weekly Market Simulation Forums

Market Simulation Registration

- Please register for your participation in Market Simulation activities for each Market Simulation initiative as appropriate
 - If you have intent to actively engage in MAP Stage testing of access, systems, functionality, processes, and/or review of results/data
- This informs CAISO Market Simulation to provide more specific support for your efforts, including
 - Data setup for your testing
 - More immediate communication and coordination impacting your testing/review
 - More detailed information for the applicable initiatives

How to register

- Submit CIDI with 'Functional Environment' = "Market Simulation"
 - Identify the Market Simulation initiative(s) you will participate in
 - Identify any specific resources as applicable
 - List the contacts and e-mail addresses that you would like to include
- CIDI is preferred and if you don't have CIDI, you can e-mail <u>marketsim@caiso.com</u> with the same information

Next Steps

- Next Market Simulation Forum:
 - Monday, January 6, 2025 @ 2:00 PM PT
- Next Release User Group:
 - Tuesday, January 7, 2025 @ 10:00 AM PT
- Next Customer Partnership Group:
 - Thursday, January 16, 2025
- Next CRR Market Simulation Meeting:
 - Tuesday, February 4, 2025 @ 1:00PM PT

ISO PUBLIC OPYRIGHT © 2024 BY CALIFORNIA INDEPENDENT SYSTEM OPERATOR. ALL RIGHTS RESERVED

Market Simulation Support

- Email general questions to <u>marketsim@caiso.com</u>
- Submit market simulation specific issues and questions in CIDI with subject: "Project Name: System Name – Issue Title" with Functional Environment set to Market Simulation.
 - If not related to a Project submit subject as "NA: System Name – Issue Title"
- Service Desk: (916) 351-2309
