Post-Production Support & Analysis Continued

Extended Market-Sim & Parallel Operations Call: To ensure continued transparency, collaboration, and shared understanding, the existing stakeholder forum for reviewing ongoing market trends and results will remain in place for the first several weeks of May. This twice-weekly forum (with timing subject to refinement based on stakeholder needs) is intended to provide the community with;

- timely insights into production Market performance and trends,
- open visibility into identified issues and anticipated resolution timelines,
- and regular updates on EDAM and DAME-related activities.

This forum is designed to support active stakeholder engagement, foster open dialogue, and ensure the community remains well-informed throughout early operational execution.

Settlements Transparency & Integrity: teams, as always, will be performing a comprehensive validation of settlement results prior to publication, to help ensure certainty and integrity of the results

Price Corrections Process: All market prices remain subject to the established price correction process. Stakeholders are encouraged to continue following the standard procedures currently in place.
