Operations Engineering

CAISO PUBLIC

Agenda

- Proposed Revisions Requests (PRR) for Reliability Requirements BPM
- Multi-Year RA
- RMR Timeline Overview
- Power Contract Bulletin Board
- Upcoming Events and Annual Deadlines

Reliability requirements BPM Updates

- PRR 1154: RAAIM Exemption Updates
- PRR 1155: References to Tariff 43A and availability assessment hour for 2020

Multi-Year RA

- No impacts to the ISO RA processes
- Continue to show only the first year to the ISO
- Second and third year showings are to be submitted to the CPUC only
- Follow the CPUC RA Proceedings for more details

RMR Timeline Overview

- Target deployment date of 12/01/2019
- Effective starting 01/01/2020
- RMR designations will be made in CIRA

Power Contracts Bulletin Board

- The bulletin board facilitates the buying and purchasing of power, as required by FERC Order 719.
- Market participants can view, post and modify requests to buy or sell power and resource adequacy contracts, including substitutions.
- Actual RA substitutions still need to be done in CIRA.
- Can be accessed using the following link:
<http://www.caiso.com/market/Pages/PowerContractsBulletinBoard/Default.aspx>

Upcoming Events and Annual Deadlines

- Acquired Resources
 - Submissions due date 10/31/2019
- NQC/EFC
 - In progress
 - Draft lists to be posted by second week of August
- Import Allocation
 - In progress
 - Will post Step 1 on July 1st
