Dear Board of Governors,

On behalf of PacifiCorp, we encourage your approval of the ISO's transitional committee charter and approval to create the transitional committee for the energy imbalance market (EIM).

PacifiCorp appreciates the ongoing efforts of the ISO management and staff to develop a governance proposal and transitional committee charter consistent with the principles outlined throughout the stakeholder process. The final governance proposal and charter provide an appropriate balance for EIM governance in the short-term and in consideration of a long-term independent structure.

I want to thank the ISO for their supportive engagement with PacifiCorp and other stakeholders during the governance proposal process.

Sincerely,
