

California ISO Readiness Notes

Title: Maintenance Updates to Resource Interconnection Management System (RIMS) July 2026

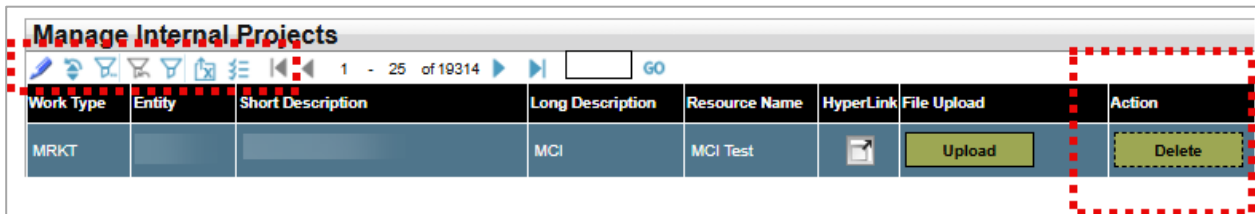

Contact: Please submit a [CIDI inquiry ticket](#)

Primary Audience: RIMS users, specifically those who interact with the Western Interconnection Model dashboard.

This maintenance will include the following enhancements:

1. Improved WIM Dashboard Upload Process

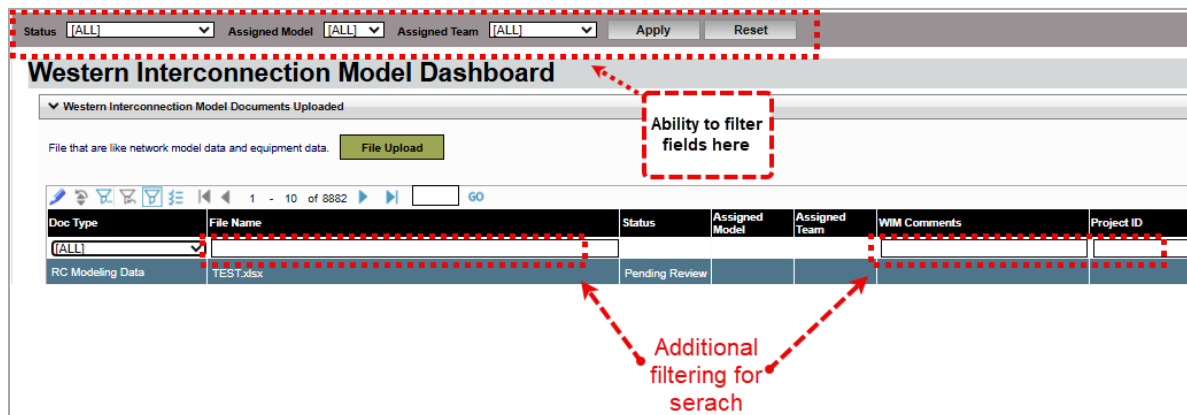

- a. The timing of the WIM Dashboard upload process has been optimized to eliminate errors that could occur between the upload to RIMS and the subsequent upload to SharePoint. In the event that an upload error still occurs, a new Delete button will be available, allowing users to remove the record from both RIMS and SharePoint, ensuring the process can be completed cleanly. *Please note, backspacing within the inline filter will not prompt a deletion.*

Work Type	Entity	Short Description	Long Description	Resource Name	HyperLink	File Upload	Action
MRKT			MCI	MCI Test		Upload	Delete

2. Enhanced Filtering Capabilities

- a. Additional filtering options have been added to the WIM Dashboard, enabling users to quickly refine and locate records based on the following fields:
 - i. Status
 - ii. Assigned Model
 - iii. Assigned Team

Status: Assigned Model: Assigned Team:

Western Interconnection Model Dashboard

▼ Western Interconnection Model Documents Uploaded

File that are like network model data and equipment data.

Doc Type	File Name	Status	Assigned Model	Assigned Team	WIM Comments	Project ID
RC Modeling Data	TEST.xlsx	Pending Review				

For any questions/comments, if you are a Scheduling Coordinator (SC) please submit a CIDI inquiry ticket. If you are a Generator Owner, please submit questions through your SC, or use the Contact Us page on www.caiso.com. For application access issues, please contact the ISO Service Desk at (916) 351-2309 or (888) 889-0450
