TCR(s) or Project Associated: Standard SIBR patch implementation, as well as EDAM Enhancements 2026

Details:

The SIBR application will undergo maintenance to implement several fixes and enhancements.

Audience: EDAM Entities
Report Title: EDAM RSE Capacity Tab (Enhancement)
EDAM Entities requested access to additional real-time and day-ahead resource bid data. Today they can see as far as TD+1. With this enhancement, EDAM Entities will now be able to view RSE Capacity for T+1 though T+7, based on submitted bids. Access to this data for additional trade dates will assist them with their internal preparation to pass the Resource Sufficiency Evaluation.
