

California ISO Readiness Notes

Title: Notable changes for the SIBR UI WebSDK 3.8 upgrade

Expected Production Date: February 11, 2025 in Production

Link to associated training documents (if applicable):

Contact: CustomerReadiness@caiso.com or submit a CIDI ticket

TCR(s) or Project Associated: End of Life Phase 1 - Software Upgrade

Targeted Audience: Market participants with the ability to submit bids for energy and energy-related commodities and services.

Details:

The California ISO is upgrading its WebSDK User Interface (UI) software framework from version 3.5 to 3.8 for multiple systems and applications. Market participants will notice a few changes to the user interface (UI) 'look and feel'. The new WebSDK 3.8 version may move familiar items around slightly, change the look of some elements or anchor UI elements in a different order. Please note that there are no core functionality changes to the Scheduling Infrastructure Business Rules (SIBR) application.

Below are some notable changes for SIBR UI:

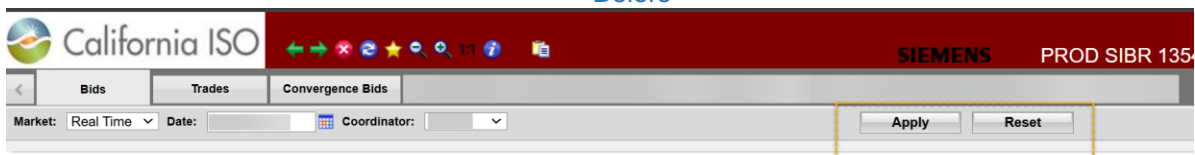

UI Display updates

The CAISO logo shape will be oblong as opposed to rectangular.

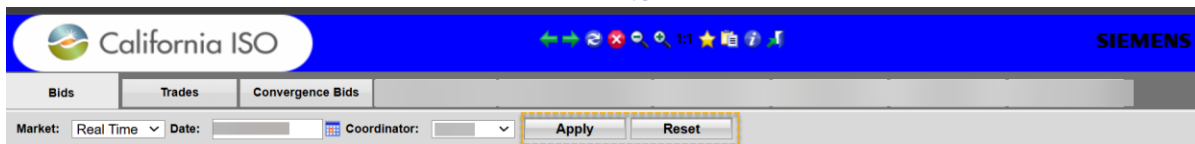

Re-positioning of the **Apply/Reset** buttons on the main tabs to be closer to the fields on the left-side instead of the right-side.

Before

After

Possible Internet Explorer (IE) Compatibility issues – Should you encounter issues with the BSAP UI after the WebSDK upgrade and are using Microsoft Edge as your internet browser, please coordinate with your Information Technology (IT) personnel to disable your Internet Explorer (IE) Compatibility Mode. WebSDK3.8 requires MS Edge to not have Internet Explorer (IE) 11 compatibility enabled on their browser. If you are using CHROME, no action is needed.

Reminder: If you bookmarked the SIBR UI URL in your internet browser, please verify that you are using <https://sibr.caiso.com/>.

You can also go to the [Market Participant Portal \(MPP\)](#) to access SIBR.

For Reliability Coordinator (RC) customers, you can access SIBR through the [RC West](#) portal > Apps > Prod > Scheduling Infrastructure Business Rules (SIBR).

For Western Energy Imbalance Market (WEIM) entities, you can access SIBR through the [WEIM Portal](#) > Apps > Prod > Scheduling Infrastructure Business Rules (SIBR).
