

## California ISO Readiness Notes

**Title:** Western Interconnection Model Dashboard

**Expected Production Date:** Thursday April 23, 2026

**Contact:** Please reach out to [CustomerReadiness@caiso.com](mailto:CustomerReadiness@caiso.com) for questions about the readiness note and/or submit a CIDI ticket for technical questions.

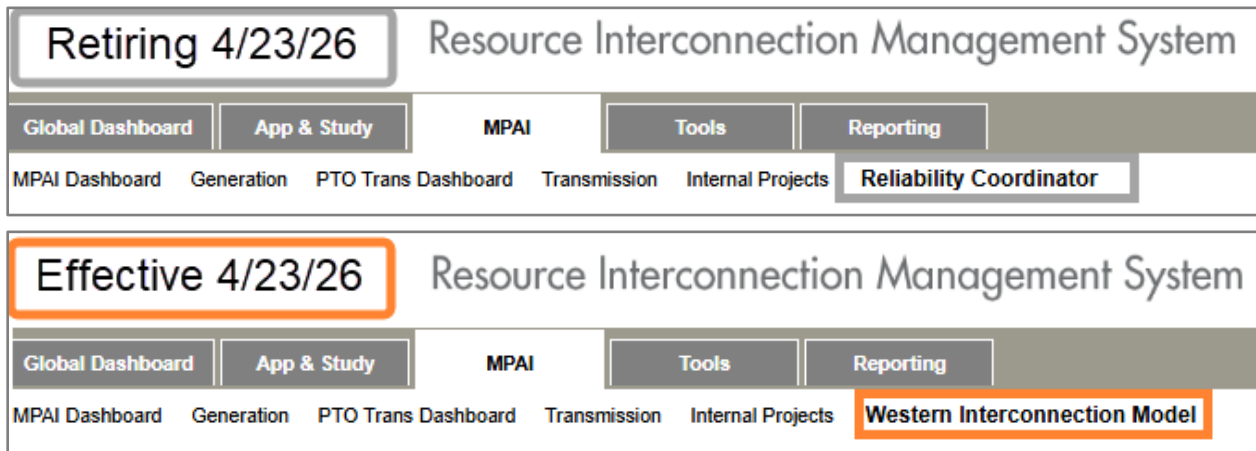

**Project Associated:** Extended Day-Ahead Market (EDAM)

**Details:**

As part of the EDAM project, updates have been made to the Resource Interconnection Management System (RIMS). These changes impact Western Energy Imbalance Market (WEIM), Reliability Coordinator (RC), and EDAM users.

**1. Dashboard Rename**

- a. The Reliability Coordinator dashboard has been renamed to the Western Interconnection Model dashboard. *No functionality has changed, only the name.*

The image shows two screenshots of the Resource Interconnection Management System (RIMS) dashboard. The top screenshot shows the 'Reliability Coordinator' dashboard with a 'Retiring 4/23/26' badge. The bottom screenshot shows the 'Western Interconnection Model' dashboard with an 'Effective 4/23/26' badge. Both screenshots show a navigation menu with items: Global Dashboard, App & Study, MPAI, Tools, Reporting, MPAI Dashboard, Generation, PTO Trans Dashboard, Transmission, Internal Projects, and the respective dashboard name.

**2. New Status: “Pending Review”**

- a. A new status, Pending Review, has been added to the Status column on the Western Interconnection Model dashboard.
- b. This status indicates that a submission has been received and is currently queued for ISO review.

**3. New “WIM Comments” Column**

- a. A new column titled WIM Comments has been added to the WIM dashboard.

- b. This column displays comments from the ISO during the review process. Users can view these comments to understand feedback, questions, or required follow up related to their submission.
