Southern California Edison (SCE) has reviewed the Aliso Canyon Gas-Electric Coordination Phase 2 Draft Tariff<sup>1</sup> of the California Independent System Operator (CAISO) and find it consistent with the final proposal<sup>2</sup>.

However, there is a typographical error in Section 39.7.1.1.1.3 (Calculation of Natural Gas Price), subsection b, which should read:

"For the Day-Ahead Market, the CAISO will use a gas price index reported by the Intercontinental Exchange between 8:00 and 9:00P a.m. Pacific Time..."<sup>3</sup>
