Southern California Edison

**Deliverability of Resource Adequacy
Capacity on Interties**

Submitted by	Company	Date Submitted
Gina M. Dixon Gina.Dixon@SCE.com (626) 302-3589	Southern California Edison	April 20, 2011

This template is for submission of stakeholder comments on the topics listed below, covered in the *Deliverability of Resource Adequacy Capacity on Interties Straw Proposal* posted on April 6, 2011, and issues discussed during the stakeholder conference call on April 13, 2011, including the slide presentation.

Please submit your comments below where indicated. Your comments on any aspect of this initiative are welcome. If you provide a preferred approach for a particular topic, your comments will be most useful if you provide the reasons and business case.

Please submit comments (in MS Word) to RAimport@caiso.com no later than the close of business on April 20, 2011.

1. Do you generally support the ISO’s proposal to expand the maximum import capability values? **Yes, SCE generally supports the CAISO's proposal to expand the maximum import capability values.**
2. What specific changes would you like the ISO to consider for the final proposal. Please explain the benefits that your proposed changes will provide. **SCE has no suggested changes to the CAISO's proposal at this time.**
3. If you have additional comments, please provide them here. **Because of the related issues and objectives of several of the CAISO's on-going proceedings - including the Resource Transitions initiative, Renewable Integration, and this instant proceeding - SCE strongly urges the CAISO to ensure that these proceedings (and any others with related issues) are thoroughly coordinated to mitigate duplication of effort and unintended consequences.**
