Re: *California Independent System Operator Corporation*
Docket No. ER15-_____000

Transmission Access Charge Informational Filing

Dear Secretary Bose:

The California Independent System Operator Corporation (CAISO) submits an informational filing to provide notice regarding the ISO's revised transmission access charges (TAC) effective January 1, 2012; July 3, 2012; September 1, 2012; October 1, 2012; January 1, 2013; January 3, 2013; January 11, 2013; April 1, 2013; May 1, 2013; July 1, 2013; September 1, 2013; October 1, 2013; December 17, 2013; January 1, 2014; April 20, 2014; May 1, 2014; June 1, 2014; and August 1, 2014.¹ The basis for these revisions to the CAISO's TAC rates is to implement revised transmission revenue requirements (TRRs) for Citizens Sunrise Transmission (Citizens), City of Colton, DATC Path 15, LLC (DATC Path 15), Pacific Gas and Electric Company (PG&E), San Diego Gas & Electric Company (SDG&E), Southern California Edison Company (SCE), Startrans IO, LLC (Startrans); Trans Bay Cable LLC (TBC) and the cities of Vernon, Riverside, Banning, and Azusa, California. The TAC revisions described in this filing also include revisions to implement the annual transmission revenue balancing account (TRBA) adjustments of the CAISO's participating transmission owners for 2014.²

¹ This filing is submitted in compliance with Order No. 714, *Electronic Tariff Filings*, FERC Stats. & Regs. ¶ 31,276 (2009). Capitalized terms not otherwise defined herein have the meanings set forth in Appendix A of the ISO tariff.

² The participating transmission owners with TRBA adjustments for 2014 are the cities of Anaheim, Azusa, Banning, Colton, Pasadena, Riverside, Vernon (California); and Citizens, DATC Path 15, SDG&E, PG&E, SCE, Startrans, TBC and VEA.

This filing consolidates notice of several revisions to the CAISO's TAC rates based on a number of Commission orders issued since the last informational filing on September 27, 2013. Each of these Commission orders and its effect on the CAISO's TAC rates is described below in order of the effective dates of the revisions to the CAISO's TAC rates, starting with the earliest revisions in a series of settlement adjustments, if applicable. Some of these Commission orders have required the CAISO to provide refunds associated with the revisions to TAC rates required by these orders. The ISO invoices refunds in accordance with the schedule set forth in the CAISO tariff for recalculation of settlements for the periods to which these refunds apply. The CAISO has included, as attachments to this filing, the worksheets for the TAC rates that were in effect for the time period covered by the filing. Worksheets for TAC rates that were subsequently adjusted for other TRR revisions approved by the Commission have not been included.

I. TRR Revision Orders and CAISO Implementation

A. SCE Revised TRR (TO-6) Effective January 1, 2012 (Attachment A)

As reported in the CAISO's September 27, 2013, TAC informational filing, on June 3, 2011, SCE submitted TRR revisions to its transmission owner tariff in Docket No. ER11-3697 to implement a formula rate for the costs associated with transmission facilities (TO-6). In an Order dated August 2, 2011, the Commission accepted the proposed formula rate subject to refund, to become effective on January 1, 2012. However, SCE was directed to make a compliance filing revising its base rate or return on equity.³ SCE submitted a compliance filing on September 1, 2011, that was accepted by Order on Compliance dated November 30, 2011.⁴ The CAISO implemented interim revised TRR rates effective January 1, 2012, consistent with the November 30, 2011, Order on Compliance.

In the August 2, 2011, Order, the Commission also appointed a Settlement Judge and established a settlement procedure to examine the SCE formula rate and the subsequent compliance filing and informational filing.⁵ These settlement procedures culminated in an offer of settlement intended to resolve all outstanding issues submitted on August 26, 2013. At the same time,

⁴ *Southern California Edison Company*, 137 FERC ¶ 61,173 (2011).

⁵ SCE's September, 2012 informational filing was submitted in compliance with the formula rate in Docket No. ER11-3697-003.

SCE filed an unopposed motion for implementation of interim settlement rates in Docket No. ER11-3697-006. The Commission approved the motion by Order dated August 30, 2013, effective as of October 1, 2013.⁶ Later, on October 9, 2013, SCE filed an unopposed motion to correct the interim rates submitted on August 26, 2013 and the Chief Judge approved this correction by Order dated October 11, 2013.

On November 5, 2013, the Commission approved the settlement submitted on August 26, 2013 and revised on October 9, 2013.⁷ The settlement revised SCE's formula rate, set a sunset date of December 31, 2017, for the use of a formula rate and established a base return on common equity of 9.30%. The letter order terminated Docket Nos. ER11-3697-000, ER11-3697-001, ER13-3697-003, and ER13-3697-005. Pursuant to the terms of the settlement agreement and the Commission Order, the CAISO adjusted the TAC rates effective January 1, 2012, July 3, 2012, September 1, 2012, October 1, 2012, January 1, 2013, January 3, 2013, January 11, 2013, April 1, 2013, May 1, 2013, July 1, 2013, September 1, 2013 and October 1, 2013. Attachment A contains TAC rate adjustments for January, 1, 2012, July 3, 2012, September 1, 2012 and October 1, 2012. All other adjustments have been superseded by subsequent adjustments described in this informational filing.

**B. City of Colton Revised TRR Effective January 1, 2013
(Attachment B)**

As reported in the September 27, 2013, TAC informational filing, the City of Colton submitted its transmission owner (TO) tariff and initial base TRR on October 26, 2012 in ER13-207, seeking a request for waiver and an effective date of January 1, 2013. On December 20, 2012, the Commission granted the request for waiver and accepted the City of Colton's TO tariff for filing, effective January 1, 2013, subject to refund, and established settlement judge and hearing procedures.⁸ The CAISO adjusted the TAC rate to reflect this interim adjustment.

The parties reached a settlement agreement establishing the City of Colton's base revenue requirement at \$3,050,000 and resolving all issues. The City filed the Offer of Settlement on March 7, 2013, and the Settlement Judge certified the settlement as uncontested on July 16, 2013. On November 25,

⁷ *Southern California Edison Company*, 145 FERC ¶ 61,103 (2013).

⁸ *City of Colton*, 141 FERC ¶ 61,217 (2012).

2013, the Commission issued a letter order accepting the Offer of Settlement.⁹ In accordance with the order, the CAISO adjusted the TAC rates as of January 1, 2013, January 3, 2013, January 11, 2013, April 1, 2013, May 1, 2013, July 1, 2013, September 1, 2013 and October 1, 2013. Attachment B sets forth the TAC adjustments for January 1, 2013, January 3, 2013, January 11, 2013 and April 1, 2013. All other adjustments have been superseded by later adjustments described in this informational filing.

C. Startrans Revised TRR Effective January 11, 2013

On November 1, 2012, Startrans filed revisions to its TRR, proposing reductions to its base revenue requirement associated with its interests in two transmission facilities (the Mead-Adelanto and the Mead-Phoenix-Projects), in Docket No. ER13-272. Startrans proposed an effective date of January 1, 2013, for the TRR revision. On December 31, 2012, the Commission accepted the filing, suspended it for a nominal period of time and ordered the revised rates to become effective on January 1, 2013, subject to refund.¹⁰ The Commission also established hearing and settlement judge procedures, and because additional decreases might have been necessary, instituted a Section 206 investigation.

Startrans submitted an offer of settlement on July 31, 2013, which established a TRR of \$3,695,000 to become effective as of January 11, 2013. On August 22, 2013, the Settlement Judge certified it as an unopposed offer of settlement, and by letter Order dated October 7, 2013, the Commission approved it. Accordingly, the CAISO adjusted its TAC rates to reflect the Startrans TRR reduction as of January 11, 2013, May 1, 2013, July 1, 2013, September 1, 2013 and October 1, 2013. These TAC adjustments have been superseded by later adjustments described in this informational filing.

D. PG&E Revised TRR (TO-14) Effective May 1, 2013 (Attachments C and D)

In the September 27, 2013, TAC informational filing, the CAISO described the PG&E interim revised TRR (TO-14) and associated TAC adjustment that became effective May 1, 2013, subject to refund, in ER12-2701.¹¹ On October 29, 2013, PG&E filed an Offer of Settlement that resolved all issues pending in consolidated proceedings Docket Nos. ER12-2701 and ER13-616, which concerned PG&E's proposed changes to its wholesale and retail

transmission rates under its Transmission Owner Tariff and transmission rates under three of PG&E's existing transmission contracts. The Commission approved the Offer of Settlement by letter Order dated January 17, 2014.¹² Attachments C and D contain the CAISO TAC adjustments implementing the final PG&E TO-14 TRR as of May 1, 2013 and July 1, 2013, respectively. The September 1, 2013 TAC adjustment for this Commission order has been superseded by other adjustments described in this filing.

**E. SDG&E Revised TRR Effective September 1, 2013
(Attachment E)**

In the September 27, 2013, TAC informational filing, the CAISO described the SDG&E TO4 formula rate submitted in ER13-941 that the Commission approved, subject to refund, effective on September 1, 2013. As discussed in that filing, the Commission issued an order on June 20, 2013, conditionally accepting the rate for filing, suspending the effective date for five months until February 1, 2014, and set the matter for hearing and settlement judge procedures.¹³ SDG&E and other parties sought clarification and a rehearing of this order, and in a July 31, 2013, Order on Request for Rehearing and Motion for Clarification the Commission suspended the TO4 formula rate tariff for a nominal period, to be effective on September 1, 2013, subject to refund.¹⁴

Negotiations with the parties to the proceeding culminated in an Offer of Settlement, resolving all TO4 formula rate issues, that SDG&E filed with the Commission on February 9, 2014. In particular, the Offer of Settlement set the wholesale and retail base revenue requirement, in accordance with the TO formula, established a term for the formula and set the return on equity. The Commission approved the Offer of Settlement in a letter Order dated May 27, 2014.¹⁵ Accordingly the CAISO made TAC adjustments reflecting the final TO4 rates for September 1, 2013, October 1, 2013, January 1, 2014, April 20, 2014, April 23, 2014 and May 1, 2014. Attachment E contains the TAC adjustment for September 1, 2013; all other adjustments have been superseded by further adjustments described in this informational filing.

**F. PG&E Revised TRR (TO-15) Effective October 1, 2013
(Attachment F)**

PG&E filed its 2014 transmission owner rate case (TO-15) on July 24, 2013, seeking an effective date of October 1, 2013 in Docket No. ER13-2022. In the filing, PG&E proposed to decrease its network TRR, resulting in a rate decrease compared to the currently effective TO14 compliance rates. The Commission issued an order on September 24, 2013, accepting the proposed rates for filing and suspending them for a nominal period subject to refund, with an effective date of October 1, 2013, and established hearing and settlement judge procedures. In addition, because the Commission believed that a further decrease in rates might be warranted, the Commission instituted a section 206 filing in EL-13-90-000.¹⁶ The CAISO adjusted the TAC for the interim TO15 rates that went into effect on October 1, 2013, but because subsequent revisions have changed the TAC as of that date, the interim adjustment has not been included in this filing.

PG&E and the parties to the 2014 transmission owner rate case (TO-15) proceeding actively engaged in settlement discussions and on July 15, 2014 filed a settlement intended to resolve all issues in ER13-2022-000 and EL13-90-000. At the same time, PG&E filed a motion seeking authority to implement the wholesale rates listed in the settlement agreement, on an interim basis, effective August 1, 2014. On July 23, 2014, the Chief Administrative Law Judge issued an order allowing PG&E to place the rates into effect pending approval of the settlement. The Judge noted that, in the event that the Commission does not approve the settlement, PG&E has the right to reinstate its as-filed TO15 rates and recover from its customers the difference between the settlement rates and the subject to refund rates then currently in effect.¹⁷

On November 7, 2014, the Commission issued a letter order approving the settlement.¹⁸ Pursuant to the terms of the settlement agreement and the Commission Order, the CAISO adjusted the TAC rates effective October 1, 2013, December 17, 2013, January 1, 2014, April 20, 2014, May 1, 2014 and June 1, 2014, as set forth in Attachment F.

G. TBC Revised TRR Effective December 17, 2013 (Attachment G)

TBC filed an application for approval of a revised TRR on September 20, 2013, in ER13-2412, seeking an effective date of November 23, 2013. TBC proposed to increase its revenue requirement from \$132,500,000 to \$139,134,000 and, among other things, requested that the Commission authorize a continuation of the 13.5 percent incentive return on equity approved in prior orders.¹⁹ In an Order issued on November 21, 2013, the Commission accepted the TBC filing subject to refund, suspended it for five months and established settlement judge and hearing procedures.²⁰ Accordingly, on April 23, 2014, the CAISO adjusted the TAC for the interim period pending approval of a final revised revenue requirement for TBC. Because the interim TAC adjustment has been superseded by other TAC changes, it has not been included in this informational filing.

On September 12, 2014, TBC submitted an Offer of Settlement addressing all issues in the proceeding. The settling parties agreed that, beginning on December 17, 2013, the TBC revised TRR would be \$131,134,000, a reduction of approximately \$8 million from the September 20, 2013, TRR application. TBC described the settlement agreement as a “black box” settlement that did not specifically address the requested return on equity or other policy issues.²¹ The Commission approved the Offer of Settlement in a Letter Order dated October 29, 2014. Subsequently, the CAISO adjusted the TAC for rates effective December 17, 2013, January 1, 2014, April 20, 2014, May 1, 2014, June 1, 2014 and August 1, 2014. Attachment G sets forth the TAC rate for August 1, 2014; all other rate adjustments have been superseded by later adjustments.

H. TRBA Adjustments Effective January 1, 2014 (Attachment H)

The docket numbers and filing dates for the filings of the participating transmission owners updating their respective TRRs to account for their 2014 TRBA adjustments are provided in Attachment H to this informational filing. In each proceeding, the Commission issued a letter order accepting the requested TRBA adjustment effective as of January 1, 2014 and, for PG&E, May 1, 2014. Along with notice of other changes in the CAISO’s TAC rates, today’s informational filing provides notice of the CAISO’s revised TAC rates effective as

of January 1, 2014 reflecting the TRBA adjustments accepted by the Commission in the orders in the dockets listed in Attachment H and set forth in the spreadsheet. However, subsequent Commission orders accepted or approved other revised TRRs effective as of January 1, 2014 that resulted in revised TAC rates that superseded the TAC rates for these dates implemented pursuant to these orders. As these interim revised TAC rates are no longer effective for the specified dates, the CAISO has not included these interim revised TAC rates effective as of January 1 and May 1, 2014 in the attachments to this filing. Attachment H also reflects TRR adjustments for the cities of Vernon, Riverside, -Banning, Colton and Azusa, due to adjustments to entitlements turned over to CAISO operational control that were submitted with the TRBA adjustments to be effective January 1, 2014, as well as SCE's updated TO8 TRR pursuant to the Commission's October 11, 2013 Order in Docket No. ER11-3697.

I. DATC Path 15 Interim Revised TRR Effective April 20, 2014

Consistent with the terms of the settlement agreement approved in the prior proceeding involving DATC Path 15's predecessor in interest, Atlantic Path 15, LLC²², DATC Path 15 filed an application for approval of a reduced TRR in Docket No. ER14-1332 on February 28, 2014, seeking an effective date of April 20, 2014. Several parties intervened, arguing that the reduced revenue requirement may be unjust and unreasonable for various reasons, including DATC Path 15's requested continuation of the 13.5 percent return on equity, projected case rate costs, and O&M expenses.

In an Order dated April 17, 2014, the Commission found that the proposed revenue requirement reduction may be unjust and unreasonable, and that further reductions may be warranted.²³ Accordingly, the Commission suspended the effective date for a nominal period, ordered that the proposed revenue requirement reduction become effective on April 20, 2014, established settlement judge and hearing procedures and opened an investigation. Consistent with the April 17, 2014 Order, the CAISO adjusted the TAC effective April 20, 2014, April 23, 2014 and May 1, 2014. These TAC adjustments have been later superseded by other adjustments and have not been included in this informational filing.

J. Citizens' Interim Revised TRR Effective June 1, 2014

Citizens submitted its annual TRR formula true-up adjustments on May 28, 2014, in ER14-2049, seeking an effective date of June 1, 2014. Citizens proposed an increased revenue requirement of \$3,321,811 or 29.1%, resulting from an increase in SDG&E's operating costs for the Sunrise Powerlink Transmission Project that are billed to Citizens. In its filing, Citizens noted that SDG&E intended to file, in a separate proceeding, a statement of revised project operating and maintenance costs.

The Six Cities filed comments on the proposed true-up, noting that they had identified several minor errors in the SDG&E filing, and that SDG&E had agreed to revise any over- and under-collections resulting from these errors in a later informational filing.²⁴ The Six Cities explained that they did not object to the proposed Citizens TRR implementation date as long as the SDG&E corrections flowed through to Citizens in a later informational filing.

On July 24, 2014, the Commission issued a letter order accepting the proposed Citizens TRR true-up, effective June 1, 2014.²⁵ The Commission noted that should SDG&E submit revised costs prior to the time of the next annual TRR true-up, Citizens must file a revised TRR within 30 days. Consistent with the July 24, 2014, order, the CAISO adjusted the TAC effective June 1, 2014. These interim rates have been superseded by later adjustments to the TAC rate and the worksheet has not been included in this informational filing.

II. Changes in TAC Rates

The TAC rates provided in the present filing provide notice of revised high voltage access charges and wheeling access charges previously provided for informational purposes by the CAISO in Docket No. ER13-2478 filed on September 27, 2013. Pursuant to the Commission orders in Dockets No. ER11-3697, ER12-2701, ER13-207, ER13-272, ER13-941, ER13-2022, ER13-2412, ER14-1332 and ER14-2049, and the docket numbers listed in Attachment H, the changes in the present filing are effective on the dates set forth below, in accordance with Appendix F, Schedule 3, Section 8 of the ISO tariff.

Worksheets illustrating the calculation of the CAISO's TAC rates are included with the present transmittal letter as Attachments A-G.
